

## Software Modules Applicable to Defender

Here is a list of all our modules that are applicable to the above Model range. Some systems will always be fitted (Mandatory), some are fitted according to model, year or engine type (Alternative) and some are optional (Optional) according to model or customer selection.

Presence of the main control unit signifying the fitting of any given vehicle system in any particular vehicle must be confirmed by running our Vehicle Scan module to diagnostically detect it. On CAN BUS based vehicles from '07 on, the vehicle system control units (Engine management and Instrument pack) are so interconnected and inter dependant that we provide them all under one single software module license / part number. Click on the links below each System Name for more detailed information about the capabilities of each module.

Software Module Part Num	Vehicle System Name	Vehicle System Type	Mandatory, Optional, Alternative	Fitment Qualification
SM001	<b>Lucas GEMS EMS</b> <a href="https://www.blackbox-solutions.com/shop/help/SM001.html">https://www.blackbox-solutions.com/shop/help/SM001.html</a>	Engine Management	Alternative 1	V8 North America Spec & 50th Anniversary Models
